Art Unit: 3743

*Election/Restriction*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 through 19 and 27 through 30, drawn to an apparatus for adjusting ambient air temperature including a control system, classified in class 165, subclass 201.
- II. Claims 20 through 26, drawn to method of converting an apparatus from an electrical cooling unit to an electrical heating unit or vice verse, classified in class 219, subclass 618+.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the process that is Invention II as claimed can be used to make an apparatus which, unlike the apparatus that is Invention I as claimed, necessarily includes an electrically connected heater and/or cooler. Alternately, the apparatus that is Invention I as claimed can be made by another and materially different process which, unlike the process that is Invention II as claimed, includes a step of mechanically connecting a cooler and/or a heater to the apparatus, but does not include a step of electrically connecting the cooler and/or heater to the apparatus.

Art Unit: 3743

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because these inventions the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ljiljana (Lil) V. Ciric, whose telephone number is (703) 308-3925.

While she works a flexible schedule that varies from day to day and from week to week, Examiner Ciric may generally be reached at the Office during the work week between the hours of 10 a.m. and 6 p.m. ET.
